**Cloud & DevOps:** AWS, Linux, CI/CD.

**Development Tools & Utilities:** Postman, Git, GitHub, VS Code, Ubuntu, Window.

**Security & Testing:** VAPT (Vulnerability Assessment & Penetration Testing).

**Soft Skills:** Communication Skills, Analytical Thinking, Problem Solving, Teamwork, Creativity.

## WORK EXPERIENCE

### Senior Software Developer-GreenHonchos Solutions Pvt. Ltd. -

Nov 2021 - Present

- Led the development of scalable, high-Performance applications using PHP, Laravel, and Lumen.
- Designed and implemented robust RESTful APIs for e-commerce solutions.
- Collaborated effectively with cross-functional teams in an agile environment.
- Managed CI/CD pipelines to streamline deployment processes and enhance application performance.

### Software Developer-Webmobril Technology

Jan 2021 - Nov 2021

- Specialized in end-to-end mobile and web development solutions.
- Focused on creating interactive and scalable applications to meet client specifications.
- Delivered projects in accordance with agile methodologies.

Mar 2019 - Jul 2020

### Software Developer-GATS India Pvt. Ltd.

- Developed high-quality web solutions utilizing modern frameworks like CodeIgniter and Laravel.
- Contributed to the design of innovative e-commerce platforms, enhancing overall user experience.
- Collaborated with clients to determine project requirements and preferences.

## PROJECTS

### GetKetch - E-commerce

- Developed and maintained backend components for GetKetch, a large-scale e-commerce platform serving approximately 40 lakh+ customers.
- Designed and optimized robust backend processes for high-volume customer data management, advanced product search, filtering, and user interaction workflows.
- Implemented order-level reporting, sales dashboards, and abandoned cart tracking to support business decision-making and improve conversion rates.
- Optimized database queries, indexing, and caching strategies to ensure performance and stability while handling millions of customer records.
- Collaborated with cross-functional teams to enhance platform efficiency, scalability, and reliability.
